

NODE.JS DEVELOPER | Senior level

We are looking for an experienced Senior Software Developer who will deal with development project related to an innovative **anti-fraud solution** for our international clients.

Workplace: KRAKOW

REQUIRED SKILLS:

Must:

- Proven record of **4-5 years of experience as a Senior** full stack JavaScript developer
 - Frontend: CSS and SASS/SCSS, ReactJS or Angular, Bootstrap, jQuery
 - Backend: Node.js
 - Architecture: Microservice architecture
 - DevOps: Docker
- Web UI testing using the most common frameworks
- Experience at working with complex business requirements.
- Ability to work efficiently in a distributed, international team.
- **Very good English, both spoken and written.**
- Ability to work independently.
- Willingness to learn.

Nice to have:

- Knowledge of microservice architectures (**especially Seneca.js**)
- Knowledge of JavaScript tooling for the browser (**webpack, grunt, gulp**)
- Knowledge of Key-Value or Document-Store databases (**Elasticsearch** would be an advantage)
- Knowledge of Graph databases (**Neo4J** would be an advantage)

- Knowledge of continuous delivery processes and workflows
- Docker knowledge

OUR OFFER:

- Stable employment in a fast-growing environment.
- Small teams and friendly atmosphere.
- Possibility to have personal influence on the technological landscape of the project.
- Extensive social package (medical insurance, multisport card, lunch tickets)
- Language classes on different levels in the office (English and German).
- Every day different fresh fruits in the office.
- Flexible working hours.
- Possibility to work from home.
