JUNIOR BACKEND DEVELOPER

Workplace: KRAKOW

We are looking for two **Junior BACKEND Developers** who would join one of our key global projects: **Fraud Prevention Solution**. The project combines "best-in-class" internal and external partners on a modular basis which can be flexibly combined and configured to meet international client needs. **Our MISSION is to shape a digital fraud-less world by combining industry expertise with cutting-edge technology.**

Join us and become Sherlock Holmes of the grid – join us and help our clients to detect the fraudsters among their customers. In this never ending race, we are defeating the bad guys with truly innovative technology!

YOU WILL work in one of our cross-functional product teams. The team is self-organized, following **agile** methods, so everybody can shape the product and is asked to take over responsibility. You will build our product's user interface with the most current tech stack (**NodeJS and React**). You will also be constantly exchanging know-how with our other Developers to solve upcoming challenges and share best practices.

STILL NOT SURE if the job is worth considering? Well, those are MAIN BENEFITS:
- We are using cutting edge technology. Yeap.
- You will work with 'trust time' and 'home office' ability.
- You will work with international team (Italy, Poland, German, Indian, UK,..,…).
- **The goal of your work is to roll out around the world THE BEST FRAUD PREVENTION SOLUTION!**
- This is a chance to play an active role in shaping our growing startup.
- This is possibility to overtake responsibility and to implement your own ideas – from day one

THE IDEAL CANDIDATE is a highly motivated self-starter with a passion for Software development and technologies like: **React, NodeJS, Docker, RestAPI, Microservice, GraphQL**, is fluent in CSS and JavaScript and at least one MV* framework for building Single Page Applications (SPA).

TAKE A LOOK AT OUR REQUIRMENTS:

- Experience with NodeJS and at least one modern MV* framework / library for SPAs, preferably React.
- MSc Computer science or Mathematics will be a big plus.
- Team spirit and very good communication skills.
- Excellent English language skills (German is not required).

CHECK WHAT WE OFFER FOR YOU:

- A stable job in a fast growing & modern environment.
- Flat hierarchy and short decision making processes.
- Work with a team of experts that allows you to learn something new every single day.
- Benefits package (private medical care, Multisport, meal/restaurants discounts etc.).
- Fresh different fruits in the office every day.
- Language classes in the office (English & German) - individual or in a team.
- Car and bike parking.

If that sounds interesting, join us! Contact as via email: career.pl@crif.com
